

# PREMIER RANGE

## LIQUID FERTILISER 4-12-12

### Typical Analysis:

Nitrogen (N) .....	4%	
Phosphorus Pentoxide .....	12%	(P: 5.23%)
Potassium Oxide .....	12%	(K: 9.96%)

### Containing Trace Elements

### APPLICATION:

Apply at a rate of 50-100 litres of product per hectare (2.5-5.0 litres per 500 sq m) of turf. This will supply 2-4 kg N, 6-12 kgs P and 6-12 kgs K per hectare. If you are on a Programme, please refer to planner for individual application rates. Dilute - 1 part product: 3-6 parts water. Do not apply liquid fertiliser in direct sunlight or excessive heat. Water in for at least 2-4 minutes after application. If irrigation is switched off, apply in damp conditions or when rain is expected. Liquid Fertilisers can be tank mixed with other products. When tank mixing with pesticides please refer to manufacturer's instructions.

### Health & Safety:

1. Essentially non-hazardous and non-toxic but take sensible precautions.
2. Avoid eye contact.
3. Prolonged contact with skin may cause dryness.
4. Wear suitable gloves and face protection when handling this material.
5. Remove contaminated clothing immediately.
6. Wash hands and exposed skin before eating.
7. Could be harmful if swallowed.
8. Keep out of reach of children.

Notice: Buyer assumes all responsibility for safety and use not in accordance with directions
